

single_muon_uniform — the same 10 events under three hit orderings (a wrong order shows as a zig-zag)
hit order: legacy $s = \sqrt{x^2+y^2+z^2}$ from the origin

hit order: ACTS reference — tracker_simhits.true_time (SimHit::time)

hit order: geometry order, truth-free (pixel→sstrip→lstrip; barrel r, endcap z along flight)
